About our Site's Security

Our site uses SSL technology built into your web browser to ensure that your private information remains as safe as possible. All of your "check out" information (including your credit card number) is sent to us via an encrypted connection with a certificate from Network Solutions. Rest assured that this page is encrypted. There is no "s" at the end of "http" in the address bar because the secure page is in a frame. With frames, only the address of the main page appears in the address bar. If you were to open the lower-right frame in a brand new window, then you would see the "https" designation. There is indeed an "https" in that frame's address, you just cannot see it. If you have any questions regarding the security on our site, please do not hesitate to let us know. We would be more than happy to assist you.
